**SECTION 1.** The foregoing recitals are true and correct and are incorporated herein and made an operative part of this Resolution.

**SECTION 2.** After giving full consideration to all evidence presented at the public hearing both orally and documentary, and after being fully informed, the City Council hereby find and decide, pursuant to the Title 17.62.120 (Conditional Use Permit) and Title 17.64.070 of the Municipal Code:

**A. Findings for Conditional Use Permit (CMC Section 17.62.120)**

- 1. The site for the proposed use is adequate in size and shape to accommodate the use and all yards, spaces, walls and fences, parking, loading, landscaping, and other features required by this title to adjust the use with land and uses in the neighborhood.**

***Facts:*** The overall 6,960-square-foot building has existed on the subject site since 1954, with no known issues pertaining to appurtenant commercial activities. The 3,443 square feet interior space in which the proposed cannabis retail store would operate appears to have sufficient physical dimensions to support the use of retail, in addition, as noted under project analysis, the proposed parking lot configuration would accommodate the parking needs of the business. The subject site is located within the Mixed-Use Overlay District (MUOD) / Commercial (Regional or Community Shopping Center) C-3A zone. Part of the scope of work is providing exterior lighting for visibility and to safely illuminate during hours of darkness. City staff surveyed and inspected the proposed cannabis business location, as measured in a straight line 600 feet from the property line, to the nearest property line of a school, day care center, youth center and park and determined the proposed location is not within 600 feet of a sensitive use and, therefore complies with this provision. **Therefore, as proposed, this criterion has been met.**

2. **That the site for the proposed use relates to streets and highways adequate in width and pavement type to carry the quantity and kind of traffic generated by the proposed use.**

**Facts:** The site is located within an established development, uses conform well to the surrounding neighborhood infrastructure, and support services with access to major streets, freeway system, and retail services. The proposed use involves a cannabis retail store generating a negligible increase in traffic. There is more than one access way on site which can avoid congestion. The City/Traffic engineer has reviewed the proposal and determined that Rowland St and Second Ave has sufficient widths and capacities to accommodate this use. **Therefore, as proposed, this criterion has been met.**

3. **The proposed use will have no adverse effects on the abutting properties or the permitted use thereof.**

**Facts:** As noted under the first finding, the appurtenant commercial building has existed for many years. Relative to the current building and supporting improvements on the project site, the changes would constitute a refinement of the interior and its appurtenances. No potentially negative impacts relative to the cannabis business. In addition, the approval of conditions would provide the city with adequate requirements for ensuring the project and use compatibility with the surroundings, and the proposed Cannabis business would not become a nuisance for adjacent businesses. The proposed cannabis business meets the cannabis regulations under CMC Section 17.84.070. **Therefore, as proposed, this criterion has been met.**

4. **That the conditions stated in the decision are deemed necessary to protect public health, safety, and general welfare. Such conditions include regulation of use, regulation of signs, requiring maintenance of grounds, regulation of noise, vibrations, odors, etc., regulation of time for certain activities, duration of use, and any such other conditions as will make possible the development of the city in an orderly and efficient manner and conformity with the intent and purposes set forth in this title.**

**Facts:** The operation of a cannabis retail store is conditionally permitted within the Commercial (Regional or Community Shopping Center) C-3A zone. All activities associated with the business will be conducted in a manner that will meet the provisions of Chapter 9.40 (Noise - which seeks to prevent unusual noises and vibrations). Approval of these applications will expire 2 year from the date of Project approval if building permits are not issued unless otherwise extended pursuant to applicable laws. Conditions of approval have been formulated to ensure that the proposed improvements for cannabis retail business establishment will operate in a manner consistent with the Covina Municipal Code and will not negatively affect the public health, safety, and general welfare of the community. Conditions of approval will ensure that the site maintains mitigates noise level and operate within the approved business hours. No major public health or safety-related impacts have been identified during the project review. The Development Review Committee, comprised of Building and Safety, Environmental Services, Los Angeles County Fire, Covina Police Department, and Planning and Engineering, were provided with the opportunity to review and comment on the project application. In addition, the proposed use has been conditioned to ensure

that no potential issues would arise during operations. The staff's comments confirm that the proposed use would operate in a manner consistent with the Covina Municipal Code and would not negatively affect the public health, safety, and general welfare of the community. **Therefore, as conditioned, this criterion has been met.**

**B. Findings for Site Plan Review (CMC Section 17.64.070)**

In order to approve the Site Plan Review (SPR) application, the Planning Commission must make the findings as listed below:

**1. All provisions of Title of the CMC are complied with;**

**Facts:** The proposed operation of a cannabis retail store within the Mixed-Use Overlay District (MUOD) / Commercial (Regional or Community Shopping Center) C-3A zone. Conditions of approval will ensure that the site conforms with all the requirements from maintenance to mitigating the odor within the site. The site is located within an established area characterized by existing streets, sidewalks, walls, existing structures, and uses that conform well to surrounding commercial infrastructure, circulation, and support services. The project would have no negative impacts on existing streets and sidewalks in that the proposed project is a minor tenant improvement with minimal impact on existing and surrounding traffic conditions with the proximity to public transit, and other forms of accessible transportation options (i.e., Uber, walking, cycling, etc.) With the overall improvements, and recommended conditions of approval, the proposed use will have no adverse effect on surrounding properties. **Therefore, as conditioned, this criterion has been met.**

**2. The design and layout of the proposed development are consistent with the general plan, zoning code, development standards of the applicable zoning district, specific plans, design guidelines and objective design standards;**

**Facts:** The proposed scope of work is consistent and conforms to the City of Covina's General Plan Goals in that the establishment of a cannabis retail store "Encourage the revitalization or upgrading of deteriorating commercial and industrial structures through City, private development, and/or other efforts." The proposed cannabis retail business conforms to the City's design guidelines for said use, as reviewed and determined by planning staff. As such, the proposed scope of work satisfies all applicable guidelines to the project, as outlined under the Covina Municipal Code, Mixed-Use Overlay District (MUOD) / Commercial (Regional or Community Shopping Center) C-3A zone Development Standards, the Covina Design Guidelines, and General Plan. **Therefore, as conditioned, this criterion has been met.**

**3. The design of the proposed development or the alterations to existing structures will not interfere with the use and enjoyment of existing neighborhood and future development, and will not create traffic or pedestrian hazards;**

**Fact:** The proposed project complies with all required development standards (i.e. size, shape, setbacks, walls, fences, parking, loading, landscaping) for the establishment of cannabis retail business and other associated improvements. The subject site is located within the Mixed-Use Overlay District (MUOD) / Commercial (Regional or Community

Shopping Center) C-3A zone with a blend of fabrication, manufacturing, assembly or processing of materials which will be compatible and not interfere with any of the business surrounding the site. The subject site is within an established area characterized by commercial uses, connecting well to existing neighborhood infrastructure and support services. Proposed improvements to the site are aesthetically pleasing, functional, and visually compatible with neighboring structures and the area within which it is proposed to be located and follow the Covina Municipal Code. Staff assesses all applications in the City for the suitability of the space and its proposed uses. Any cannabis retail business is reviewed for the location of the retail area, loading spaces, queuing line, bathroom facilities, mechanical/electrical/plumbing improvements, security, landscape, and sales floor area ensure that they are operating as stated. The project site is approximately 18,164 square feet (0.42 acres) in land area and developed with a 6,960 square foot existing commercial building occupied by multiple tenants. **Therefore, this criterion has been met.**

**4. The proposed development has been reviewed in compliance with the provisions of the California Environmental Quality Act (CEQA);**

***Fact:*** Construction activities during the tenant improvements are not likely to cause serious public health problems. All potentially hazardous materials used during project construction will be disposed of in accordance with manufacturers' specifications and instructions, thereby reducing the risk of hazardous materials use. In addition, the Project would comply with all applicable federal, state, and local requirements concerning the use, storage, and management of hazardous materials, including but not limited to the Resource Conservation and Recovery Act, California Hazardous Waste Control Law, federal and state Occupational Safety and Health Acts, SCAQMD rules, and permits and associated conditions issued by the Building and Safety Division. **Therefore, as conditioned, this criterion has been met.**

**5. The proposed development will not be detrimental to the public health, safety or welfare or materially injurious to the properties or improvements in the vicinity;**

***Facts:*** Construction activities during the tenant improvements are not likely to cause serious public health problems. All potentially hazardous materials used during project construction will be disposed of in accordance with manufacturers' specifications and instructions, thereby reducing the risk of hazardous materials use. In addition, the Project would comply with all applicable federal, state, and local requirements concerning the use, storage, and management of hazardous materials, including but not limited to the Resource Conservation and Recovery Act, California Hazardous Waste Control Law, federal and state Occupational Safety and Health Acts, SCAQMD rules, and permits and associated conditions issued by the Building and Safety Division. **Therefore, as conditioned, this criterion has been met.**

**6. The development complies with the provisions for dedications, public improvements and undergrounding utilities pursuant to CMC 17.64.140 and congestion management and transportation demand management requirements pursuant to CMC 17.64.150;**

**Facts:** All new utility service lines that are installed to serve the tenant space shall be placed underground. The Applicant shall comply with any other utility and/or street improvements required by the Department of Public Works (Engineering, Traffic, and Environmental Services). **Therefore, as conditioned, this condition has been met.**

**SECTION 3.** The City Council, based on its own independent judgment, has determined that this Project is categorically exempt pursuant to CEQA Guidelines Section 15301, Class 1 exemption, which consists of the operation, repair, maintenance, permitting, leasing, licensing, and minor alteration of an existing private structure involving negligible or no expansion of an existing use, including interior or exterior alterations involving such things as interior partitions, plumbing, and electrical conveyance and additions to existing structures provided that the addition will not result in an increase of more than 50 percent of the floor area of the structures before the addition, or 2,500 square feet. The project involves a proposed expansion of less than 50 percent, with an addition of 1,306 square feet to an existing 2,137-square-foot tenant space, totaling 3,443 square feet and occupying only 49.60% of the commercial center's floor area. The project involves interior improvements and upgrades. No structural additions are proposed. Furthermore, there is no reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

- A. Conditional Use Permit 25-003 and Site Plan Review 25-032 subject to the conditions of approval incorporated here and attached hereto as Exhibit "A."
